Goals of our Curriculum:

The most important goal of our early childhood curriculum is to help children become enthusiastic learners. This means encouraging children to be active explorers who are not afraid to try out their ideas and to think their own thoughts. Our goal is to help children become independent, self-confident, inquisitive learners, who are able to learn at their own pace and in the ways that are best for them. The child is neither pushed ahead too soon nor held back waiting for the rest to catch up.

Montessori Education The learning environment has well planned centers that allow for child-choice and self-directed play, small groups, and supportive teaching that prepare children for academic excellence. Dr. Montessori emphasized that the hand is the chief teacher of the child. The apparatus is designed to carefully train the muscles, the five senses and the mental awareness of each child.

Our Montessori program gives students good habits and attitudes particularly a positive sense of themselves, which will make a difference throughout their lives.

We reserve the right to move any child to the classroom that will most suit their needs
